

STITCH HAPPENS!

Join us as we celebrate 10 years of knitting camps and continue to explore the wonderful world of knitting. Be inspired and see how this innovative journey can help you develop your creative side. Workshops will be run throughout the weekend and are designed to meet the needs of camp participants. There are no set projects and you may work on whatever you wish. If you require special help with a project please indicate so on the registration form and we will set aside time to help you.

We will cover all aspects of knitting throughout the weekend. Including choosing yarn and patterns, and everything you need to know to make any project from the cast on to the final cast off. If you are a beginner we will have you knitting in minutes and teach you everything you need to get knitting one of our great beginner projects. We offer a variety of mini workshops on the latest knitting and finishing techniques. We'll share lots of tricks tips and techniques that will help you to knit better, faster and easier, and introduce the newest eco friendly fibres. You will learn all about circular knitting and how to adapt patterns as well as working with color, texture and design and how to use two circular needles instead of double points. Learn interesting and creative ways to use up your yarn stash.

We will have a special problem solving session where we will help you discover creative solutions to fix those projects that didn't turn out just the way you wanted.

Learn exercises that will strengthen your hands and wrists and help you sit better longer. Enjoy show & tell, discussion groups and inspiring activities.

Don't miss the fun!!!

What is Knitting Camp?

Imagine being able to knit without interruption in a peaceful, cozy atmosphere. Harmony House is the perfect location to treat yourself to a relaxing weekend of knitting. Share enthusiasm with other knitters, be inspired, discover new techniques, get fresh ideas and knit, knit, knit.

Knitting is one of today's hottest hobbies. Recent studies claim the only thing more relaxing to be yoga. In our high tech society it is necessary for us to take up healthy hobbies like knitting to balance our busy lives. Not only does this creative pastime give us self-confidence and a feeling of accomplishment, it allows us to use our time effectively and create wonderful handmade heirlooms. You can learn this age old art in just a few minutes and have a lifelong pastime that will give you hours of pleasure. Camp is the perfect place to learn new skills or brush up on old ones. Instructor Wendy Toye has been teaching knitting for the last 17 years and has taught hundreds of people to knit & improve their skills in classes, seminars and on TV.

Don't miss the fun!

Knitting - an age old art form that has become today's hottest hobby
